Behavioral Therapy: Classical and Operant Conditioning

Community Reinforcement Approach is used within tx centers with Loved One w/ SUD (create environment likely to evoke recovery behaviors; give positive reinforcement (esp. based in social connection) for recovery behaviors)

HelpingFamiliesHelp.com points families towards CRAFT and other CRAFT-based resources (all the resources on this family tree and more) as well as offers support and community to CRAFT-based providers through the Helping Families Help Provider Network (HFHPN)
